

Writer's Block For Babies

\$50 for one hour session (plus materials)

Ok, not really “babies” but for young ones. Through Illuminous Flux, I am offering **themed programs for children** which include stories read aloud and crafts and other related activities. I am open to pretty much any theme under the sun.

These programs are individualized according to interest, age, and ability.

They keep in mind developmental milestones, pre-literacy skills, sensory integration, fine/gross motor skill development, positive social interaction, and caregiver participation and education.

I am well versed in multiple intelligences, special needs accommodations, and group facilitation. I have two decades of homeschooling and support group leadership experience, as well as working with families through the Early Intervention Program.

But mostly, I like to have fun learning about stuff and reading books to kids.

I can come to homes and community spaces, as part of an event or club, or part of a larger organization like schools or libraries.

If you have a little one under school age come see a Writer's Block for Babies story time session at Ovid or Interlaken Libraries!
